

# 21<sup>st</sup> Century Community Learning Centers Program

21<sup>st</sup> CCLC Reviewer Scoring Report – Cohort 10

<b>Applicant Name:</b>	<b>MSD of Warren Township</b>
<b>Proposal Ranking:</b>	41
<b>Average Score</b>	102.5/ 125

## Proposal Strengths:

- Overall, the application was well explained and contained detailed information. The data provided shows the need, as well as how 21CCLC will address the needs within the community.
- There is a well-developed evaluation plan which should serve to assist the school district and the Boy and Girls Club with program improvement information by which to plan and improve programming.
- MSD Warren Township presented a reasonable proposal for after school and summer programming for students grades K-4th and 5-8th focusing on STEM. Several sections of the proposals presented only partial/limited information thus resulting in a reduction of points. Application lost majority of points in the program design, program implementation and Safety/transportation sections of application. Proposal could be strengthened by more incorporation of evidenced based data in addition to more thoughtful safety processes.

## Proposal Weaknesses:

- No major weaknesses. Application was for the most part well organized.
- It is not clear why Warren Township Schools indicate this program is a "for profit" enterprise (program income is marked "yes") as the application gives no information about charging for costs for the programming. (There is some indication of a fee of \$15.00 which will be charged at the local Boys and Girls Club site off-site of the Warren Township schools in the Program Stability section.)

## Top Areas Where Points Were Lost:

- Professional Development
- Partnerships
- Program Design
- Program Implementation
- Safety and Transportation
- Priority Points
